Financial support from the 'Bijzonder Onderzoeksfonds' of the University of Ghent is gratefully acknowledged.

I'm grateful to Anders Vredin, Katarina Juselius, Freddy Heylen, Glenn Rayp, Rudi Vander Venet and the participants at the 'VVE-dag 1999' (Ghent University, March 31, 1999) for useful comments and suggestions on earlier drafts of this paper. Remaining errors are the sole responsibility of the author.
