WORKING PAPER

Towards Ontology-driven Information Systems: Redesign and Formalization of the REA Ontology

Frederik Gailly¹

Geert Poels

February 2007

2007/445

¹ Corresponding author – Frederik.Gailly@Ugent.be

Both authors are members of the Management Informatics Research Unit, Department of Management Information, Operations Management and Technology Policy, Faculty of Economics and Business Administration, Ghent University, Tweekerken 2, 9000 Gent, Belgium.

The authors would like to thank the participants of the second REA-technology workshop (Santorini, Greece), Sven Castelyn (VUB), Wilfried Lamahieu (KULeuven) and Roland Paemeleire (Ugent) for their very useful feedback and for sharing their own view and interpretation on the REA-ontology.
