Financial support from the "Bijzonder Onderzoeksfonds" (BOZF, grant no. 01104297) of the University of Ghent is gratefully acknowledged.

The authors are grateful to J.E. Sturm, J. de Haan and the participants in the research seminar on "Public Investment and Economic Growth" (March 27, 1998, University of Ghent) for useful comments and suggestions on earlier drafts of this paper. The authors also want to thank Bart Hertveldt (Belgian Federal Planning Bureau) who kindly provided capital stock data. Any remaining errors are ours.
