WORKING PAPER

Infrequent large shocks to unemployment
- New evidence on alternative persistence perspectives -

Gerdie Everaert

Social Economics Research Group

nr. 99/71
July 1999

Financial support from the "Bijzonder Onderzoeksfonds" (BOF, grant no. 01104297) of the University of Ghent is gratefully acknowledged.

This paper has benefited greatly from suggestions made by Freddy Heylen, Glenn Rayp and Rudi Vander Vennet. The author also wants to thank Nick Draper (Netherlands Bureau of Economic Policy Analysis) who kindly provided data on the equilibrium rate of unemployment in the Netherlands. Remaining errors are the sole responsibility of the author.
